Here Is a Remedy That Will Cure Eczema.—We Prove It.

Why waste time and money experimenting with greasy salves and lotions, trying to drive the eczema germ from underneath the skin when the Windrow Drug Store guarantees ZEMO, a clean liquid preparation for external use to rid the skin of the germ life that causes the trouble? One application will relieve the itching and often times one bottle is sufficient to cure a minor case of eczema.

In over 2,000 towns and cities in America, the leading druggist has the agency for ZEMO and he will tell you of the marvelous cures made by this clean, simple treatment. ZEMO is recognized as the cleanest and most popular treatment for eczema, pimples, dandruff and all other forms of skin or scalp affections whether on infant or grown person. Will you try a bottle on our recommendation? W. H. Windrow's Drug Store.

New Fountain Notes.

BY NARRATOR.
ED ANVIL HERALD:—

The masquerade ball given by the "Quihi Gun Club" at their hall Saturday night was one of the largest attended dances ever given at that place. Music was furnished by the Mann Bros. band, and the best of order prevailed throughout the entire night. There were about twenty masks and the characters were well chosen: both comical and amusing. No prizes were awarded to any of them; but we think credit is due to Charles Senne and Willie Weiser; the former represented an "Indian Chief" and the latter with sombrero, lasso and spurs, and on his leggings, with quirt kept time with the music, presented a good spirited cowboy.

Misses Polly Bendle, Bell Procter, Theresa Saathoff, Lily and Maud Allen, four young ladies of Hondo were among the masqueraders Saturday night.

Miss Clara Boehle, one of Quihi's belles, but now of Hondo, was home for the dance Saturday.

Henry Barth and Willie Weynand, two of D'Hanis' sports, took in the dance at Quihi Saturday night.

Willie Tampke, a young gent from Utopia, spent the latter part of last week in our burg and also took in the dance at Quihi.

We failed to mention in our last week's letter that J. L. Oefinger of Yancey, who is clerking for the Yancey Mercantile Co. of that place, spent a few days the first of the week with home folks at this place.

Miss Emma Bohmfalk, one of New Funtain's belles, returned Saturday after a pleasant visit to relatives at Yancey.

August Gerdes visited home folks here Sunday.

Mr. and Mrs. E. H. Hartmann were pleasant visitors to our burg Sunday.

Mr. and Mrs. Wm. Buss of Seguin were pleasant visitors to Mr. Buss' brother, Henry, and other relatives at this place. They returned home this morning, making the trip overland.

John Muennink and C. J. Oefinger, two business men of this place, left Saturday for Yancey to attend a meeting of the proposed deep well company, but as only a few persons were present (as we are informed,) the question of the once supposed "deep well" was dropped.

Charles Bendle and family were visitors to our burg Sunday.

Otto Neuman was down from the hills Saturday with a load of hogs which he took to the Hondo market.

W. M. Saathoff was a Hondo visitor today.

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription

It Makes Weak Women Strong.

Sick Women Well.

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 21 one-cent stamps to cover cost of mailing only; or, in cloth binding for 31 stamps.

Attacks School Principal

A severe attack on school principal, Chas. B. Allen, of Sylvania, Ga. is thus told by him. "For more than three years," he writes, "I suffered indescribable torture from rheumatism, liver and stomach trouble and diseased kidneys. All remedies failed till I used Electric Bitters, but four bottles of this wonderful remedy cured me completely." Such results are common.

Thousands bless them for curing stomach trouble, female complaints, kidney disorders, biliousness and for new health and vigor. Try them. Only 50¢ at W. H. Windrow's.

Oyster Shell Roman Roads.

Many people have wondered what becomes of pine needles and—oyster shells. The Roman settlers seem to have used them to advantage, for the streets of the ancient Verulamium, by St. Albans, which is to be further excavated, are paved with oyster shells, which seems to indicate good taste and economy on the part of our predecessors.—Westminster Gazette.

We are requested to announce that the ladies of the Catholic Church will serve a dinner and supper Tuesday of the first week of the April term of district court for the benefit of the church.

Mrs. Dr. Fletcher was the lucky winner of the first prize, a silver loving cup, in the endurance contest run of automobiles from San Antonio to Corpus Christi and return last week for cars of the runabout class.

Today is P. E. O. Tag Day. Fill your pockets with dimes and don't dodge the taggers! The proceeds of the tagging will be devoted to the payment of water rent for the hydrants in Public Park, and every one should get tagged!

The regular meeting of the Mothers Club will be held next Monday afternoon at 4 o'clock. The special feature of the meeting will be a paper on "The Function of Good Literature in Character Building," by Misses Stella Stone and Novella Johnson.

Chris. C. Mills of Sheboygan, Michigan, and J. A. Mills of D'Hanis were in Hondo Tuesday on a pleasure trip. This is the elder Mr. Mills' first trip to Texas and he finds it uncomfortably warm, having just left a country covered with three feet of snow.

We are requested to announce that the P. E. O. Sisterhood will have a man at Public Park next Monday to plant trees and shrubbery, and any one having trees or plants to donate to the park are requested to deliver them at the park that day or notify some member of the society and the same will be sent for.

Miss Lola Mask now has a nice line of Spring and Summer Millinery, from the St. Louis Market, on display at the Mask & Son store and invites the ladies of Hondo and vicinity to call and inspect the same before purchasing elsewhere. Newest and most approved styles, best fabrics and reasonable prices. Give her a call. tf.

Agent P. Jungman, apropos of our reference to the freight rate on wood from this place in our last issue, calls our attention to another feature of the same. He says that a cord of wood will weigh at least three thousand pounds—often times more—and when the company pulls a cord from here to Alpine for three dollars it is doing so at the rate of ten cents per hundred pounds for a distance of 320 miles. This certainly looks like a very low rate for such a haul and yet it looks like the road could make it low enough for it not to be prohibitive. We are glad to thus be able to give both the shipper and the carrier's side of the question and if it brings them closer together on terms of mutual helpfulness and a better understanding our reference to the matter will have served its purpose.

Both Saved Gallons.

Devoe is worth \$4 or \$5 a gallon, put-on; how much is another paint worth?

Depends on how many gallons you've got to put-on, to be equal to one of Devoe.

Mr. J. J. Hall, Sheffield, Pa., painted two houses one coat, five years ago, lead-and-oil, took 40 gallons.

Last summer bought 40 gallons Devoe for same houses; had 10 gallons left.

Mr. N. Avery, Delhi, N. Y., owns two houses exactly alike; painted one with Devoe; took 6 gallons. The other with some other; took 12 gallons.

What'd you give for those off paints?

Bear in mind, you've got to pay for the painting. Holloway Bros.

Richards & Pringle's Minstrels showed to a large audience at the Auditorium last Saturday night. As minstrels, the troupe is good, but the negro minstrel is never the artist in this line that the white man is and this troupe is no exception to the rule. A blind man could have readily told that the actors were real negroes rather than burnt cork artists. Where the troupe really did "rise and shine," however, is as musicians. In this line they leave nothing further to be desired.

With that commendable enterprise that ever characterizes the firm of Schmitt & Steinhardt, it has arranged with the Roberts, Johnson & Rand Shoe Co. for the appearance of Ted and Ted, two juvenile vaudeville performers, to give a free exhibition in front of the store at 4:30 o'clock this afternoon. This entertainment will be free to all, and will be an especial treat to the children, all of whom are invited to attend.

Questions Answered by

Jas. Pluck

OPTICIAN

(Q.) Why is it that glasses are worn so much more now?

(A.) Years ago the science of optics was not understood as it is today. Only old people or those near-sighted wore glasses. Now we correct with lenses all errors of sight.

(Q.) Why is it that cheap glasses do not give satisfaction?

(A.) Cheap glasses are so faulty in construction and so poor in quality that they distort the vision and cause pain in the eyes.

(Q.) Can my headaches be relieved with glasses?

(A.) It can.

A personal visit will be necessary; let us talk it over. Eyes tested free.

Pick-Ups.

From The Auditorium Herald.

If "all the world's a stage" the actors are mostly "supes"!

+

"Love thy neighbor as thy self" but leave the opera singer alone!

+

Although "variety is the spice of life," too much "variety" spoils the show!

+

Paradoxical as it may seem, many a man who plays a good role never masters a roll!

+

What most men like about a play is the frequent intermissions—for refreshments!

+

An actor does not always need an airship to get "up in the air."—Now there is forgetting his lines!

+

Much depends upon the mental attitude. Get the circus feeling on, if you would enjoy the show to its fullest extent.

+

The man who falls in love with an actress at first sight probably wishes afterwards that he had used an opera glass!

+

The next attraction at the Auditorium will be the return of the favorites, Woods Sisters, March 11, presenting the great scenic production, "St. Elmo."

A Good Beginning.

Everything in later life depends upon how we begin it. You cannot be successful in life if you haven't good health. To insure good health in later life it is necessary to start right. Many of life's serious ills are caused by constipation, indigestion and liver trouble. The best way to cure them in old or young is by the use of Dr. Caldwell's Syrup Pepsin. It is absolutely guaranteed to do what we claim, and if you want to try it before buying, send your address for a free sample bottle to Pepsin Syrup Co., 119 Caldwell Bldg. Monticello, Ill. It is sold by all druggists at 50c and \$1 a bottle.

Best of All Timekeepers.

Probably the best timekeeper in the world is the electric clock in the Bell Observatory. It is inclosed in an airtight glass cylinder and its deviation is practically nil.

In Bad Fix

"I had a mishap at the age of 41, which left me in bad fix," writes Mrs. Georgia Usher, of Conyers, Ga.

"I was unconscious for three days, and after that I would have fainting spells, dizziness, nervousness, sick headache, heart palpitation and many strange feelings."

"I suffered greatly with ailments due to the change of life and had 3 doctors, but they did no good, so I concluded to try Cardui."

"Since taking Cardui, I am so much better and can do all my housework."

Take CARDUI

The Woman's Tonic

Do not allow yourself to get into a bad fix. You might get in so bad you would find it hard to get out.

Better take Cardui while there is time, while you are still in moderately good health, just to conserve your strength and keep you in tip top condition.

In this way your troubles, whatever they are, will gradually grow smaller instead of larger—you will be on the up-grade instead of the down—and by and bye you will arrive at the north pole of perfect health.

ABOUT ADVERTISING—NO. 7

The Cannon That Modernized Japan

By Herbert Kaufman.

Business is no longer a man to man contact, in which the merchant and the patron establish a personal bond, any more than battle is a hand-to-hand grapple, where bone and muscle and sinew decide the outcome. Trade as well as war has changed in its aspect—both are now fought at long range.

Just as a present day army of heroes would have no opportunity to display the individual valor of its members, just so a merchant who counts upon his personal acquaintanceship for success is a relic of the past—a business dodo.

Japan changed her policy of exclusion to foreigners after a fleet of warships battered down the Satsuma fortifications. The Samurai, who had hitherto considered their blades and bows good enough, discovered that one cannon was mightier than all the swords in creation if they could not get near enough to use them. Japan profited by the lesson. She did not wait until further ramparts were battered to pieces, but was satisfied with her one experience and proceeded to modernize her methods.

The merchant who doesn't advertise is pretty much in the same position as that in which Japan stood when her eyes were opened to the fact that times had changed. The long range publicity of a competitor will as surely destroy your business as the cannon of the foreigners crumbled the walls of Satsuma. Unless you take the lesson to heart, unless you realize the importance of advertising, not only as the means of extending your business but for defending it as well, you must be prepared to face the consequences of a folly as great as that of a duelist who expects to survive in a contest in which his adversary bears a sword twice the length of his own.

Don't think that it's too late to begin because there are so many stores which have the advantage of years of cumulative advertising. The city is growing. It will grow even more next year. It needs increased trading facilities just as it's hungry for new neighborhoods.

But it will never again support neighborhood stores. Newspaper advertising has eliminated the strength of being locally prominent, and five cent street car fares have cut out the advantage of being "around the corner." A store five miles away can reach out through the columns of the daily newspaper and draw your next door neighbor to its aisles, while you sit by and see the people on your own block enticed away without your being able to retaliate or supply new customers to take their place.

It is not a question of your ability to stand the cost of advertising but of being able to survive without it. The thing you have to consider is not only an extension of your business but holding what you already have.

Advertising is an investment, the cost of which is in the same proportion to its returns as seeds are to the harvest. And it is just as preposterous for you to consider publicity as an expense as it would be for a farmer to hesitate over purchasing a fertilizer if he discovered that he could profitably increase his crops by employing it.

ing the purchaser the only
protection possible against inferior goods. A
